MI Advisor Plan is offered by the State of Michigan. TIAA-CREF Tuition Financing, Inc. is the Program Manager and Nuveen Securities, LLC is the Distributor.

There are various risks associated with an investment in the Advisor Plan; principal loss is possible. The Advisor Plan’s Investment Portfolios are subject to the risks of the underlying fund(s) in which they invest and other risks, as described in the Disclosure Booklet. The Target Risk Portfolios are currently comprised of two Investment Portfolios. The Target Risk Portfolios are designed for Account Owners who prefer a diversified Investment Portfolio with a fixed risk level rather than a risk level that changes as the Designated Beneficiary ages.

Before investing, carefully consider the investment objectives, risks, charges and expenses of the MI 529 Advisor Plan, including whether the investor’s or designated Beneficiary’s home state offers any state tax or other benefits that are only available for investment in such state’s qualified tuition program. Other state benefits may include financial aid, scholarship funds, and protection from creditors. For this and other information that should be read carefully, please request a Plan Disclosure Booklet at 866-529-8818 or visit MI529advisor.com.

Participation in the Advisor Plan does not guarantee that the designated Beneficiary’s account assets will be adequate to cover future tuition or other higher education expenses, or that the designated Beneficiary will be admitted to or permitted to continue to attend an institution of higher education. Contributions to an account and the investment earnings are not guaranteed or insured by the State of Michigan, the Education Savings Program, the Federal Deposit Insurance Corporation, any other government agency or entity, or any of the service providers including, but not limited to, TIAA-CREF Tuition Financing, Inc. and Nuveen Securities, LLC.

Not FDIC insured | No bank guarantee | May lose value

You’re on a mission. You want to help someone you care about (maybe even yourself), pay for a higher education. A worthy quest, for sure. One that can help bring someone’s true potential to life and make dreams come true. But it’s also a quest that can cost a daunting amount of money.

Here, you’ll learn how to overcome being overwhelmed when it comes to the high cost of college. You’ll see how a tax-advantaged college savings plan, like the MI 529 Advisor Plan, can help offer a solution to the high costs of a valued (and valuable) college education.

Source: SallieMae "How America Pays for College 2017"
It can seem like an epic journey...

Education costs are always on the upswing. And if you think college is too expensive today? Look at what it could cost in 18 years for a four-year college education.

Current Cost (2018-2022)

- Public/in-state: $97,061
- Public/out-of-state: $153,749
- Private: $191,090

Future Cost (in 18 years)

- Public/in-state: $222,466
- Public/out-of-state: $352,396
- Private: $437,982

Sample Savings Target (35%)

- Public/in-state: $77,863
- Public/out-of-state: $123,339
- Private: $153,294

According to the 2017 SallieMae research report, parent and student savings account for nearly 35% of college costs.

So for a family with a 2-year old and a 4-year old, the college bill would look like this...

- Public/in-state: $384,806
- Public/out-of-state: $609,551
- Private: $757,592

Examples above assumes attending school at age 18 for 4-years. It also assumes an annual college cost inflation rate of 5%. Source: CollegeBoard, future.collegeboard.org/pay-for-college/college-costs/college-costs-calculator, 2017.
Meanwhile, families must get creative with college financing, using every resource available...

And total student debt is soaring, up six percent in 2016 from 2015.

Total 2017 student loan debt = $1.44 trillion
Average Class of 2016 graduate debt = $37,172
Average monthly payment (20- to 30-year old) = $351

But it’s well-worth the trip

Average lifetime earnings expectations rise with level of education.

Source: SavingforCollege.com. The Price of Procrastination Calculator. Assumes a hypothetical 5% rate of education inflation over 18 years. Your monthly contribute assumes a hypothetical investment growth of 6% assuming no additional contributions or withdrawals and all earnings are reinvested. Your investment will vary and may perform better or worse than these examples which are for illustrative purposes only and do not represent any specific investment.

...And the right vehicle
(MI Advisor 529 Plan!)

Quick Look: 529 College Savings Plans

- Tax-advantaged education-savings account can help grow your savings
- Named after a section of the Internal Revenue Code
- Similar to a Roth IRA retirement account but for higher education
- Funds pay for college and related qualified higher education expenses
- Pays tuition at thousands of higher education institutions, in the U.S. and abroad
- Almost anyone can contribute, making it a family affair
Saving $$ on Taxes May Mean A Lot More $$ For College

Simply, 529 plans are among the top investment choices available to parents or grandparents – or anyone – who wants to help a worthy recipient on a college savings quest. Three key tax advantages provide the primary horsepower for 529s as a powerful college savings vehicle:

1. Tax-Free Growth
The money you earn in a 529 plan is not subject to federal or state income taxes as long as it remains in the plan. This can help your account grow faster since all of your earnings can be reinvested, increasing returns with tax-free compounding.

2. Tax-Free Withdrawals
No taxes are due to the federal government, or to most states, when money is withdrawn from a 529 account and applied to qualified expenses. And the list of what and where an expense counts as qualified is bigger than you might think.

3. State Tax Savings for MI Residents
MI 529 Advisor is the only advisor-sold college savings plan that allows MI residents to…

- Deduct net contributions up to $10,000 (for joint filers) from your Michigan taxable income annually ($5,000 for single filers)
- Contribute up until December 31 to earn a deduction for this calendar year.
- Make generous maximum contributions of up to $500,000 per Beneficiary (including contributions in the Michigan Education Savings Program [direct program] and the Michigan Education Trust [529 prepaid tuition program])

The Benefits of Tax-Free Growth

The Potential Power of Tax Advantaged Growth

Saving on Taxes = More for College

529 plans provide compounding growth potential in a tax-free account, which may provide substantially more growth potential over time than a taxable account, as shown by the illustration.

This example assumes an initial investment of $5,000, monthly contributions of $100, and a 6% annual rate of return over 15 years. The taxable account assumes a 28% federal and 5% state taxable rate. The calculations are for illustrative purposes only and the results are not indicative of the performance of any investments. Account values will fluctuate based upon several factors, including general market conditions. Past performance does not predict future results. The assumed rate of return is not guaranteed. The assumption includes the reinvestment of dividends and capital gains. For non-qualified withdrawals, earnings are subject to income taxes and may be subject to additional tax penalties. Please consult your tax professional.
10 More Reasons to Choose the MI 529 Advisor Plan

Beyond the primary tax advantages, there’s a lot more to like...
529s can help you save for college and more. They also provide the potential for favorable financial aid treatment, offer a range of gifting and estate-tax benefits to help you with estate planning, and give you the account control and flexibility you need.

1 Encourage everyone to invest
Any U.S. resident, regardless of income or state residency, can open an account. And it’s not just for parents and grandparents. Aunts, uncles, siblings and even family friends are eligible to contribute to your account—which makes the perfect special occasion gift for your Beneficiary.

2 Take advantage of high account balance limits
The combined account balance per Beneficiary for MI 529 Advisor Plan and all other Michigan 529 programs may be as high as $500,000. Once this limit is reached, earnings can continue to accrue, but new contributions will not be allowed.

3 Pay for tuition and more
Of course, you may use the MI 529 Advisor Plan funds for tuition. But you can also use the funds for qualified education expense such as room and board, books, computers/tablets and internet access, and more.

4 Choose your school
You can use your MI 529 Advisor Plan savings at public or private colleges, universities, technical colleges, trade schools, graduate schools, or certificate programs in Michigan, out-of-state, and many schools abroad.

5 Benefit from the guidance of a financial advisor
The MI 529 Advisor Plan is available only through professional financial advisors: experts who can help you define your goals, choose your investments and take advantage of tax- and estate-planning benefits.

6 Enjoy favorable financial aid treatment
In short: as long as a parent is the account custodian, the child’s financial aid will decrease by no more than 5.6% of the account value. According to the federal financial aid formula, parents are expected to use 5.6% of their assets—as opposed to 20% of their child’s assets—toward their child’s college expenses. But unlike other college-savings vehicles, 529 plans are considered assets of the account owner (e.g., the parent), not the Beneficiary (e.g., the child). So unlike other accounts that can be counted as a student’s assets—thereby reducing the student’s eligibility for needs-based financial aid—529 plans generally receive more favorable financial aid treatment.
Put time on your side with accelerated gifting

You can generally contribute up to $14,000 ($28,000 for married couples) per Beneficiary per year without triggering federal gift taxes. What’s more, special 529 rules let you use five years of annual exclusions at once for a tax-free gift of up to $70,000—and joint taxpayers may fund up to $140,000 at one time. Your federal lifetime gift tax credit may also be available for funding your 529 account.* Contributions are generally considered completed gifts for federal transfer tax purposes and are, therefore, potentially subject to federal gift tax. Generally, if a contributor’s contributions to Accounts for a Designated Beneficiary, together with all other gifts by the contributor to the Designated Beneficiary, do not exceed the “annual exclusion” amount of $14,000 per year (or $28,000 for a married couple), no federal gift tax will be imposed on the contributor for gifts to the Designated Beneficiary during that year.

Capture a range of estate-tax advantages

Funding a 529 account is considered a gift to the Beneficiary for estate-tax purposes—all contributions and earnings grow outside your taxable estate. Plus, 529 plans enables you to retain control over the account and its assets.*

Make multiple gifts to multiple Beneficiaries

With 529s, anyone can open an account and contribute at any time. You may own and fund as many 529 accounts for as many Beneficiaries as you like, subject to funding limits. Other people may also contribute to your 529 accounts and remove assets from their own estates.

Retain control over the Beneficiary’s account

Unlike other savings plans for children, such as UGMAs and UTMs, the 529 account owner always retains control—even after a Beneficiary reaches majority age. You can change the Beneficiary to another family member of the current Beneficiary without any cost, tax or penalty. You decide how to invest your contributions, when to make withdrawals and to whom they will be paid—you, the student, or directly to the school.

* Tax benefits are conditioned on meeting certain requirements. Federal income tax, a 10% federal penalty tax and state income tax and penalties apply to non-qualified withdrawals of earnings. Generation-skipping tax may apply to substantial transfers to a Beneficiary at least two generations below the contributor. Gift examples are general; individual financial circumstances and state laws vary—consult a tax advisor before investing. If the contributor dies within the five-year period, a prorated portion of contributions may be included in their taxable estate. See the Disclosure Booklet for more complete information.

What 529s can be used for

- Tuition
- Room and board
- Books
- Supplies
- Fees
- Required equipment, like laptops and tablets

Where 529s can be used

- Colleges
- Graduate schools
- Universities
- Trade schools
- Private or public institutions
- In-state or out-of-state, including many abroad

MI 529 Advisor Plan: Choices for All

Flexible investment options, wide array of asset managers, the guidance of your advisor

When you’re committed to a child’s future, you’re not just helping them pay for school: You’re giving them the adventure of a lifetime. The MI 529 Advisor Plan can help you make the most of your journey together.

Investment choice and flexibility

Everyone is different, especially when it comes to investing; we all have distinct goals, risk-tolerance levels and time horizons. That’s why the MI 529 Advisor Plan lets you choose from three types of investment options, which you’ll learn more about on the following pages.

Access to premier asset managers

The MI 529 Advisor Plan lets you choose among some of the largest and most respected investment-management firms within one integrated plan. With a robust investment menu featuring 20 investment portfolios from leading money managers, you can put some of the best investment professionals to work for you.

Four distinct investment categories

1. Age-Based Investment Portfolio…
   automatically adjust for the Beneficiary’s age, lowering your investment’s risk level as he or she gets closer to college.

2. Target Risk Portfolios…
   helps tailor your account to your own risk-tolerance level.

1. Multi-Fund Portfolio…
   offers access to multiple mutual funds that invest across a wide range of sectors.

16. Individual Investment Portfolios…
   allows you to invest in individual funds and construct a unique investment mix.
20 Portfolios Across 4 Investment Categories = Several Solutions For Your Unique Needs

The MI 529 Advisor Plan offers access to a wide array of asset managers and professionally managed investment portfolios. Together with your advisor, you can create a customized plan using four investment categories—age-based, target risk, multi-fund, and individual investment portfolios. Use them separately or together in a complementary mix.

**Age-Based Portfolio**

The Age-Based Investment Portfolio is currently divided into nine age-bands, each of which has a different investment strategy. No matter what band your Beneficiary falls under, it automatically will rebalance without any action on your part. The age-bands for younger Designated Beneficiaries seek a favorable long-term return by investing primarily in mutual funds that invest primarily in equity securities, which typically have a higher level of risk, but may have greater potential for returns than mutual funds that invest in primarily debt securities. By the time college is around the corner, a greater proportion of your assets will be in lower-risk investments designed to help preserve capital.

![Age-Based Portfolio Diagram]

This illustration is representative of portfolio holdings, for exact percentages, see the Disclosure Booklet.
Target Risk Portfolios

The two Target Risk Portfolios are designed for investors who want to tailor their strategy based on their personal risk tolerance. Each Target Risk Portfolio invests in multiple underlying funds, and one Target Risk Portfolio also invests in the Funding Agreement. Target Risk Portfolios do not change with the age of the Beneficiary. This illustration is representative of portfolio holdings, for exact percentages, see the Disclosure Booklet.

Multi-Fund Portfolio

The Multi-Fund Portfolio seeks to achieve its investment objective by investing in multiple underlying funds. The Multi-Fund Portfolio is designed for investors who desire a more targeted investment strategy for all or a portion of their investment. This illustration is representative of portfolio holdings, for exact percentages, see the Disclosure Booklet.

Individual Fund Portfolios

If you and your advisor prefer to construct your own customized mix of strategies or supplement other options, you may select among the 16 portfolios shown here. Each Individual Fund Portfolio invests in a single underlying fund, except the Principal Plus Interest Portfolio, which invests solely in the Funding Agreement. Please consult your advisor for a more detailed description of any specific offering.

Each MI 529 Advisor Plan account is subject to a service fee, state administrative fee, program management fee, underlying fund fees and sales charges.

¹ Some state plans do have their own age and/or time limits.
² Withdrawals that are not used for qualified higher education expenses may be taxed as ordinary income and may be subject to a 10% additional penalty tax.
³ Per year per Beneficiary. Note that if the Donor dies before the first day of the fifth calendar year, a portion of the contribution must be added back to the Donor’s estate for tax purposes.
Ready to start your education savings journey?

Count on the MI 529 Advisor Plan to help see you through the education savings process: from opening your account, to helping it grow to meet college expenses, to spending your account assets wisely while attending school. We’re with you all the way.

Frequently Asked Questions

Q. Can more than one person contribute to the account?
A. Yes! Anyone can contribute to an account if the account balance does not exceed the maximum balance limit of $500,000 per Beneficiary. However, the account owner maintains control over the assets.

Q. Can I change the Beneficiary?
A. You can change your Beneficiary at any time or transfer a portion of your investment to a different Beneficiary. However, the new Beneficiary must be an eligible member of the previous Beneficiary’s family.

Q. What if my child or loved one receives a full or partial scholarship?
A. Great job! If the student receives a scholarship that covers the cost of qualified higher education expenses, you can withdraw up to the scholarship amount free of the 10% additional federal tax. However, the earnings portion of the withdrawal is subject to federal and Michigan income tax.

Q. If I leave Michigan what will happen to my account?
A. If you move to another state you can keep your money invested in your MI 529 Advisor Plan account. You can still make contributions, too. Remember, before investing in another 529 college savings plan, consider whether the state in which you or your Designated Beneficiary resides has a 529 college savings plan that offers favorable state income tax or other benefits that are available only if you invest in that state’s 529 college savings plan.

Q. What if my child or loved one decides not to attend college?
A. No problem. You can:
• Keep the funds in the account. The investments may be used in future years if the Beneficiary changes his or her mind.
• Change the Beneficiary to an eligible family member.
• Make a non-qualified withdrawal. Any earnings will be subject to federal income tax and any applicable state income tax, as well as an additional 10% federal penalty tax.

Q. If I leave Michigan what will happen to my account?
A. If you leave Michigan you can keep your money invested in your MI 529 Advisor Plan account. You can still make contributions, too. Before investing in another 529 college savings plan, consider whether the state in which you or your Designated Beneficiary resides has a 529 college savings plan that offers favorable state income tax or other benefits that are available only if you invest in that state’s 529 college savings plan.

Q. What if my child or loved one decides not to attend college?
A. No problem. You can:
• Keep the funds in the account. The investments may be used in future years if the Beneficiary changes his or her mind.
• Change the Beneficiary to an eligible family member.
• Make a non-qualified withdrawal. Any earnings will be subject to federal income tax and any applicable state income tax, as well as an additional 10% federal penalty tax.

Q. What if my child or loved one decides not to attend college?
A. No problem. You can:

MI Advisor Plan is offered by the State of Michigan. TIAA-CREF Tuition Financing, Inc. is the Program Manager and Nuveen Securities, LLC is the Distributor.

There are various risks associated with an investment in the Advisor Plan; principal loss is possible. The Advisor Plan’s Investment Portfolios are subject to the risks of the underlying fund(s) in which they invest and other risks, as described in the Disclosure Booklet. The Target Risk Portfolios are currently comprised of two Investment Portfolios. The Target Risk Portfolios are designed for Account Owners who prefer a diversified Investment Portfolio with a fixed risk level rather than a risk level that changes as the Designated Beneficiary ages.

Before investing, carefully consider the investment objectives, risks, charges and expenses of the MI 529 Advisor Plan, including whether the investor’s or designated Beneficiary’s home state offers any state tax or other benefits that are only available for investment in such state’s qualified tuition program. Other State benefits may include financial aid, scholarship funds, and protection from creditors. For this and other information that should be read carefully, please request a Plan Disclosure Booklet at 866-529-8818 or visit MI529advisor.com.

Participation in the Advisor Plan does not guarantee that the designated Beneficiary’s account assets will be adequate to cover future tuition or other higher education expenses, or that the designated Beneficiary will be admitted to or permitted to continue to attend an institution of higher education. Contributions to an account and the investment earnings are not guaranteed or insured by the State of Michigan, the Education Savings Program, the Federal Deposit Insurance Corporation, any other government agency or entity, or any of the service providers including, but not limited to, TIAA-CREF Tuition Financing, Inc. and Nuveen Securities, LLC.
